----- INTRODUCTION -----

This release of the SYNERGY VOICE LIBRARY represents a major re-packaging of the voices available for SYNERGY users. The format of the library and its contents is the direct result of the suggestions we have received.

Enjoy...

The key elements of the library are as follows:

To reduce the number of cartridges in the library set most voices that are in published voice carts have been eliminated. This also applies to the internal voices. (Refer to the version numbers on page 3.) The library is incomplete without them, so those cartridges must be available.

There are three listings, each sorted differently, to provide a comprehensive cross-referencing of voices/carts.

Many duplicate voices from the previous library have been eliminated and everything has been tweeked.

Regular updates to the library are now possible due to the flexible format. As new commercial cartridges become available the library catalog (this document) will be updated. As the number of library voices increases, single cartridges will be added to the library rather than re-releasing an entire set.

----- ONE LAST NOTE -----

All suggestions for improvement of the library are welcome. The library is for YOU. Any ideas may be sent to Jeff Johnson at the address below or directly to DKI. Also, Jeff is our contact for custom voice cartridges in the greater Los Angeles area.

## ---- LIBRARY NUMBERING SYSTEM ----

Each voice in the catalog is referenced by a number representing the cartridge it's in and the SYNERGY switch assigned to that voice. For example: "C 5 22" means cartridge # 5, switch position #22.

As there are three physical forms for the carts; each type has its own prefix:

INT = INTERNAL VOICE SET

C = PUBLISHED VOICE CARTRIDGES

L = LIBRARY CARTRIDGES

The format of the cart references:

CART TYPE	CART#	SWITCH#
(INT, C, L)	(##)	(1-24)

## ---- EXAMPLES ----

INT 11 = INTERNAL VOICES, SWITCH# 11

C 3 1 = VOICE CART #3 (SOUND EFFECTS), SWITCH# 1

L11 21 = LIBRARY CART #11, SWITCH# 21

---- VOICE CARTRIDGE VERSION NUMBERS ----

INTERNAL\$ : The internal voices referenced in the library
